Rotary Scholarships are one of the most successful programs by the Rotary Foundation, already running since 1958. Rotary D1600 makes use of these Rotary Foundation scholarships for the specific purpose to develop future leaders in water and sanitation.

OVERVIEW

The strategic partnership between Rotary and IHE Institute for Water Education, which the Rotary Foundation initiated in 2012 and is being continued by Rotary D1600, aims to tackle the world's water and sanitation crisis by increasing the number of trained professionals to devise, plan, and implement solutions in developing and emerging countries. Through this partnership, a limited number of scholarships are awarded annually for graduate students at IHE's Delft campus in the Netherlands. These scholarships are designed to promote long-term productive relationships between Rotarians and highly skilled water and sanitation professionals in their communities.

Rotarians, in applicants' home country, interview and select from local candidates who have already been admitted to one of IHE Delft's eligible 12-month Master of Science (MSc) degree programs. Sponsor Rotarians maintain contact with the scholar throughout his or her studies. Rotarians in the Netherlands involve the scholars in local cultural and Rotary-related events during their academic program.

The financing of the successful candidates will be managed through Rotary's Global Grant process.

ABOUT ROTARY

Rotary is an international organization of business, professional, and community leaders who provide humanitarian service and help to build goodwill and peace in the world. In 34,000-plus Rotary clubs, 1.2 million members volunteer their expertise, time, and funds to support local and international service projects. Find out more at <https://www.rotary.org/>.

ABOUT IHE DELFT

[IHE Delft Institute for Water Education](https://www.un-ihe.org/) is the largest international postgraduate water education institution in the world and the only institution within the United Nations system to confer accredited Master of Science degrees and promote doctoral degrees.

ABOUT ROTARY SCHOLARS

Recipients of this scholarship will benefit from the support they receive through regular contact with sponsor Rotarians from their home country and the opportunity to interact with Rotarians in the Netherlands. And Rotary alumni constitute an extensive network of Rotary scholarship recipients and Rotarians worldwide. Becoming involved with a local Rotary club and the alumni association allows scholars to stay connected to Rotary's global community and resources.

KEY CONSIDERATIONS

Students admitted to IHE Delft initiate contact with Rotary clubs in their home communities. Rotarians who are aware of water

and sanitation professionals seeking to advance their career skills should encourage them to first apply to IHE Delft; they must first be admitted there in order to apply for this scholarship.

Qualified clubs and districts that are located near the scholarship candidate's workplace or residence are encouraged to apply.

The three eligible Master of Science programs are the Delft-based tracks in [Water & Health](#), [Water Hazards, Risks & Climate](#) and [Water Resources & Ecosystems Health](#). Joint programs are not eligible. Students are encouraged to return to their home country after completing their academic program.

Scholars are selected in a competitive process, based on their ability to have a significant, positive impact on global water and sanitation issues during their career. Successful applicants will have a strong academic background, significant and relevant professional experience, and demonstrated leadership in the community.

MINIMUM PARTICIPATION REQUIREMENTS

Rotary seeks scholars who wish to use their expertise to improve the lives of others in their own communities and around the world. Scholars will be expected to maintain good academic performance and participate in the following activities:

- Provide a monthly update on the educational program and their cultural experiences to Rotarian sponsors in their home country.
- Give at least one presentation at a Rotary club or district event in the Netherlands.
- Give at least one presentation at a Rotary district conference in their home country.

Selected students are encouraged to return to their home country, work with Rotarian sponsors on an activity to make a positive impact on water and sanitation in their home community.

Note: Rotarians, spouses or lineal descendants of Rotarians, or employees of a club, district, or other Rotary entity are not eligible to apply.

THE APPLICATION PROCESS

1. Students admitted to IHE's Delft eligible programs seek in their home country the sponsorship of their local Rotary club and Rotary District by completing the scholarship candidate portion of the application and sending it to the potential sponsor.
2. Rotarians from the local Rotary Club interview the scholarship candidate and decide whether to sponsor him or her through a Global Grant.
3. Total cost of each scholarship is € 32,500 (@0,95 equals \$ 34,211).
The local Rotary Club is encouraged to financially contribute to the Global Grant. Preferably \$ 5,000 or at least an amount that can be carried by the club.

The club is also encouraged to obtain a District Designated Fund (DDF) contribution via their district Foundation Committee. Again preferably \$ 5,000. or any other amount the Committee can make available.

Finally, in some cases students themselves contribute to their own scholarship. Any amount up to about \$ 3,000 would help to get the scholarship fully financed. Such student contribution will be deducted from the Rotary Global Grant to be financed via a Rotary Global Grant.

4. The sponsor completes the Rotary club/district portion of the application and submits it to rotary.ihescholarship@gmail.com, no later than 15th April 2023, together with the student's resume and the IHE Delft admission letter. Any nomination forms submitted after this date will not be considered.
5. The Rotary/IHE Delft committee then reviews the nomination and decides whether it is willing to support the Global Grant for a scholarship at IHE Delft. Focus of the review is the demonstration of the candidate to have the potential to make a significant, positive impact on global water and sanitation issues during their career. Furthermore, the track record of the local sponsoring Rotary Club in WASH-projects and the plans for the IHE Delft-student upon return to his/her country will be taken into consideration as well.
6. In case of a successful nomination, a Global Grant application will be initiated with The Rotary Foundation to fund the scholarship. The Rotary/IHE Delft committee will assign a host Rotary Club in the Netherlands and will assist in funding and completion of the Global Grant. More info on Global Grant applications can be found on: <https://my.rotary.org/en/take-action/apply-grants/global-grants>.
7. The scholar submits a progress report after the scholar's first year of the program and a final report when the scholar completes the academic program.
